SMARTPOWER
SOLUTION SERIES

POWER SUPPLIES

The Newest SmartPower Family.

No single component exceeds the power supply as an accurate barometer of computer system dependability. For over 15 years, Antec has been the name professionals rely on for their power supplies. Antec Solution Series power supplies feature SmartPower: an onboard temperature sensor that regulates the fan speed so as the temperature rises the fan's RPM increases. SmartPower power supplies run as much as 40% cooler and 80% quieter than standard power supplies. All have FCC Class B, UL, CUL, NEMKO, CB & TUV certifications.

SL350 Blue

SL450, SL400, SL350

SL300S, SL250S

Special Features:

- ATX12V compliant, for AMD™ and Intel® systems
- SmartPower - runs cooler and quieter
- Aux power connector and +12V connector for wide motherboard compatibility
- MTBF 50,000 hrs
- Approvals: UL, TUV, FCC Class B, CB and NEMKO
- ATX Size - 5.9" (L) x 5.5" (W) x 3.4" (H)
- AQ3 - Antec Quality three year parts & labor warranty

Model	SL250S	SL300S	SL350	SL400	SL450
Combined +5V, +3.3V	185W	220W	230W	240W	250W
Combined +5V, +3.3V & +12V	230W	280W	330W	380W	430W
Max. output	250W	300W	350W	400W	450W
